

Video Conferencing, Streaming, and Hybrid Learning Packages

Presentation Package \$480

This package includes technology for presenting and conferencing with a virtual audience. Use this to teach to a virtual audience, present from a classroom to an online meeting, or record lectures via video conferencing platform.

- Standard AV Package
- Webcam with stand & 20ft USB extension cable
- 1 Presenter Wireless Microphone (Handheld or Lavalier)
- Setup support and rehearsal session with AV Technician included

Hybrid Class Package \$600

The Hybrid Class Package offers everything needed to host classes, meetings, or webinars with in-person and virtual guests/presenters. It includes audience microphones so in-person participants can speak with virtual participants. Add extra microphones for even better communication between all meeting participants.

- Standard AV Package
- Webcam with stand & 20ft USB cable
- 1 Presenter Wireless Microphone (Handheld or Lavalier)
- 2 Audience Microphones (Boundary or Handheld)
- Setup support and rehearsal session with AV Technician included

Streaming Package \$780

This package includes everything needed to stream your event live to YouTube, Facebook, etc. with high quality audio and video. Streaming is best used when the in-person meeting needs to be broadcast to a huge number of participants, but those participants don't need to communicate with the in-person meeting, except via chat. Streaming links are easiest to distribute.

- Standard AV Package
- Video Camera (HD) with tripod stand
- Dedicated streaming computer with capture device
- 2 Wireless Microphone (Handheld or Lavalier)
- Setup support and rehearsal session with AV Technician included

Conference Cart \$300

This includes a TV on a rolling stand, a computer mounted to the back, and a webcam with microphone sitting on top. Log in to your video conferencing account on the computer to join meetings anywhere and add a virtual speakers or audience to your in person meeting. The Video Conferencing Cart can be used anywhere in the building to join video conferences and add virtual speakers or a virtual audience. This is an add-on and does not include the Standard AV Package.

- 50" LED Display with built in speakers
- Computer with:
 - Windows 10 Pro
 - Wireless Mouse & Keyboard
 - Zoom, WebEx, Teams, Skype
- Webcam with built-in microphone
- Audio patched to in-room sound
- All on rolling TV stand
- Setup support and rehearsal session with AV Technician included

*Packages available in rooms 201, 203, 219, 221, Auditorium, Skyview & Monona. Conference cart available anywhere
